**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 20-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Ushikawa (US6140256).

Ushikawa discloses a substrate processing method wherein the substrate is held by a holder (3), a heater (31) in the bottom of processing container, a lid body (21, 22) moveable up and down (Figure 1), supplying a processing fluid (64, 65), a valve in the supply line (64b, 65b), a fluid supply and drain (63, 63, 23), a controller (10) for controlling the close/apart motion of the moving mechanism, a plurality of holding rods (41, 42, 43, 51, 52, 53) so as to penetrate the processing container movably in a fluid tight manner (Figure 1) comprising the steps of moving the substrate close to heater to heat to a processing temperature, moving the substrate apart from the heater to a processing position after heating to a processing temperature, supplying processing fluid (abstract), making the holder receive the substrate, discharging the processing fluid after supplying the processing fluid, opening a lid body, closing the lid body, after discharging the processing fluid again opening the lid body, transferring the substrate from the processing position to the delivery position and unloading the substrate, the flowing direction of the processing fluid is perpendicular to the holder, the controller controls the moving mechanism

so that the substrate is delivered into the container and a processing position where the substrate is apart from the heating surface (column 5, line 6-column 6, line 54).

***Allowable Subject Matter***

3. Claims 18, 19, and 24-32 are allowed.

***Response to Arguments***

4. Applicant's arguments filed 10/21/04 have been fully considered but they are not persuasive. In regards to independent claim 20, Applicant argues that Ushikawa does not teach moving substrate close to but not touching heater. Examiner directs Applicant's attention to column 4, lines 23-25.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3742

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
